

COLORADO

Department of Public
Health & Environment

Dedicated to protecting and improving the health and environment of the people of Colorado

FINDING OF NO SIGNIFICANT IMPACT

TO ALL INTERESTED GOVERNMENTAL AGENCIES AND PUBLIC GROUPS:

As required by guidelines for the preparation of environmental impact statements, an environmental review has been performed on the proposed action below:

Project: Town of Dillon

Location: Summit County

Project No.: 140067D

Total Cost: \$2,139,572

Project Description

The proposed project consists of the construction of a new water storage tank to replace existing storage tank. The project will be funded, in part, by a Drinking Water Revolving Fund loan in the amount of \$1,800,000 at an interest rate of 2%. The project will not increase monthly user rates.

The review process did not indicate that significant environmental impacts would result from the proposed action. Consequently, a preliminary decision not to prepare an Environmental Impact Statement (EIS) has been made. The action is taken on the basis of a careful review of the engineering report, environmental assessment, and other supporting data that are on file in the Water Quality Control Division of the Colorado Department of Public Health and Environment, and are available for public review upon request.

Comments supporting or disagreeing with this decision may be submitted for consideration to:

Tawnya Reitz, Project Manager
Colorado Department of Public Health and Environment
WQCD-GLU-B2
4300 Cherry Creek Drive South
Denver, CO 80246-1530

After evaluation of the comments received, the Division will make a final decision; however, no administrative decision will be taken on the project for at least 30 calendar days after publication of the Finding of No Significant Impact.

Dated this 9th day of April, 2015.

A handwritten signature in black ink, appearing to read 'P. Pfaltzgraff', written over the printed name.

Patrick J. Pfaltzgraff
